

URBAN OASIS

Turn your garden into a place of refuge with bamboo screening and genuine Balinese decor

If you're looking for an eco-friendly way to block out an unsightly view or add privacy to an outdoor entertaining area, bamboo screens are ideal. And if you're looking for a wide selection of quality bamboo screens, Bamboo Habitat's range is as extensive as it is impressive.

The latest addition to the collection is their Smoked range, which is already proving very popular. Traditional firing methods are used to smoke the bamboo, giving the culm (stem) a dark, rustic finish and leaving the bamboo with a wonderful earthy scent that adds to the overall appeal.

No matter which style of screen you choose and no matter what its location — by the pool, on a balcony or in a beachside garden — you can be assured it will be long-lasting and incredibly robust. In fact, bamboo is ideal in any outdoor situation as it does not rot, is resistant to termites and will stand up well to salt water, sand and wind.

And to ensure each screen is sturdy and secure, it is strung internally with 3mm galvanised wire. This gives a completely seamless look and makes joining panels even easier!

Depending on what you intend to use your screen for, you might like to choose one with a particular pole thickness or height. If your goal is to create a private area, or your own sacred space, choose a screen made of thicker poles to maximise privacy.

To complement your new bamboo screening you'll need the right décor, and Bamboo Habitat can help with this, too. Choose from authentic, custom-made Balinese gazebos, modern shade structures, water features, stone statues and more.

If you're travelling to the holiday island of Bali, you might like to pay a visit to Bamboo Habitat's new sister store, Tropical Habitat, where you can avail yourself of a buy-direct-and-save service. You can buy in person from the Bali showroom or via the website from the comfort of your own home.

Tropical Habitat offers you a choice of stone statues, water features, pebbles, pavers, pots and furniture, to name just a few of the many authentic products on offer. All products are handmade and finished to western standards, which means you can be assured the craftsmanship and attention to detail will be second to none and that you will receive a special piece that will bring you enjoyment for many years to come.

Shipping can be organised on your behalf and, once your order arrives in Australia, you can have it delivered to your home or you can collect in person from your nearest seaport. As you can see, the Tropical Habitat shopping experience is easy and fun, so why not try it yourself and save? ■
